VIDEO MAPPINGS

AP MICROECONOMICS
The AP Microeconomics course is one of the most popular economics courses taught at the high school level. The material covered, outlined in the College Board's course description, is more advanced than that found in a general high school economics class.

Here we've mapped videos from Marginal Revolution University's *Principles of Micro*, *Principles of Macro*, and *Everyday Economics* courses to the AP Micro standards. Below are some of our best videos at the high school level. You can show them in class or assign them for homework — don't forget they all come with practice questions!

**UNIT I - BASIC ECONOMIC CONCEPTS**

Videos:
- Division of Labor: Burgers and Ships
- Comparative Advantage and the Tragedy of Tasmania
- Introduction to Economics

**UNIT II - THE NATURE AND FUNCTION OF PRODUCT**

**MARKETS**

Videos:
- The Demand Curve
- The Supply Curve
- The Equilibrium Price and Quantity
- Supply and Demand Terminology
- Price Ceilings
- Rent Control in Mumbai
- Elasticity and Slave Redemption
- Introduction to Consumer Choice
